

International Cannabis Forum

19-20 June at the Palacio de Ferias y Congresos (FYCMA) Málaga – España

World Cannabis Conferences

19 and 20 of June

The **World Cannabis Conferences** have been created with the aim of making reality all the progresses and efforts carried out in the cannabis field in recent years.

On the occasion of their second edition, to be held in Malaga on Friday 19 and Saturday 20 June, the aim is to delve into the several dimensions of the cannabis and its current situation through four **thematic segments** (Uses of Cannabis, Cannabis and Society, Cannabis and Science, and Growing 2.0), forum based, but also through audiovisual contents.

Being such a key moment in Spain, we believe it is necessary to approach the **regulation of marijuana** from a social perspective and to bring closer **the scientific and medical view** for better understanding the possibilities and viability of **the normalization**; furthermore, it is as well necessary to discuss about growing and the potential uses and derivatives of cannabis.

This international event (free and open to anyone of legal age) provides a framework for reflection, where attendees could take part of the debate by conveying their concerns and interacting with the speakers.

WCC2015

The Palacio de Ferias y Congresos de Malaga

It was raised with the aim of becoming a reference center for tradeshow and conferences, both nationally and internationally, leading the Mediterranean countries. Its activity started on 22 March 2003 and it reached its first decade establishing itself as one of the main catalysts for the economy of Malaga and the metropolitan area. It has also become one of the most important business centers for national fairs and tradeshow, mainly thanks to a high level quality services and to a up-to-date facilities, which have host more than 1.300 events over the last years.

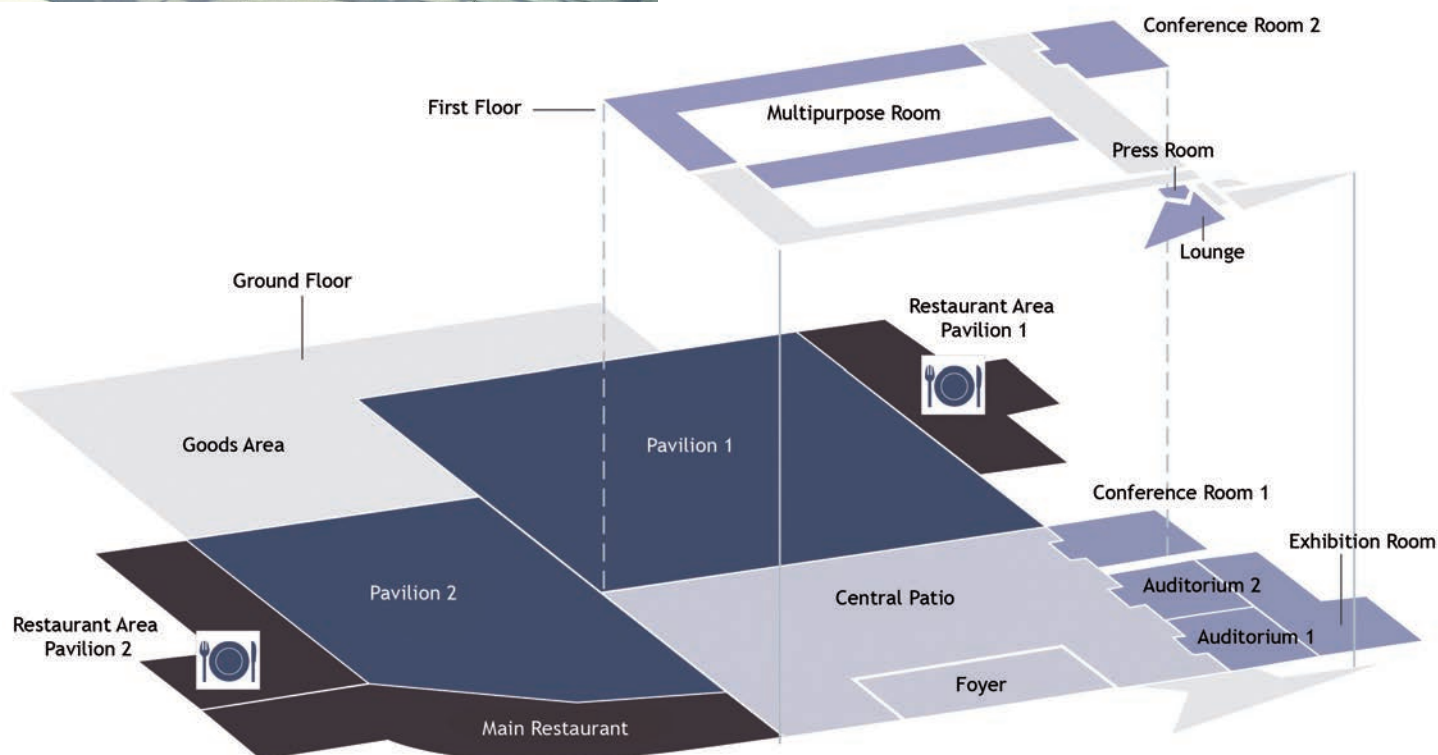

Placed 5 minutes away from Pablo Ruiz Picasso International Airport and a few kilometers from Malaga city center, the Palacio is an extraordinary space for celebrating and planning any sort of event. With a 60.000m² and a functional and modern design which blend together Malaga's tradition and the XXI century's avant-garde, the building counts on an exhibition area of 17.000m² distributed among: two pavilions, two auditoriums, two conference rooms, an exhibition room, fifteen multipurpose rooms, three restaurant areas and a parking area with a capacity of 1.200 vehicles. Such facilities make possible to host over 20.000 visitors.
